

Positive Test Protocol –

***Positive test within the team (coach, assistant, player, parent that attends practice):**

- Any player, coach, or manager feeling unwell should not come to practice (or soccer activity) and immediately notify their coach/team manager.
- Any player, coach, or manager (or their family member) presenting symptoms of COVID-19 (fever, cough, trouble breathing, etc.) should notify the coach, team manager, or club immediately. All activities for the whole team (coaches, players, managers) should be suspended until testing for the symptomatic person has a negative result.
- Any player, coach, or manager (or their family member) who tests positive will require all team activities and practices to be canceled for 14 days. Each player, coach, or manager involved in another team shall also not attend activities with that team for 14 days.
- Require medical clearances from those that had previously tested positive for COVID-19. Written clearance from their physician should note that the player can participate fully and the activity is recommended.
- Shutdown any facility for deep cleaning and disinfection if possible. Deep clean all team and player equipment.
- When a case is confirmed as positive, the club needs to notify all coaches, players, managers and parents connected to the team within 24 hours of a positive case (no names required). The club shall also notify any coach of a team(s) that they have come into contact with during a practice, scrimmage or game in the last 10 days. All activities and practices will be canceled for 14 days for the team with a positive case, and any team that has had contact practice, scrimmages, or games.
- If a player misses a practice, game or scrimmage after being notified of a positive case, they will not have that held against them by their team, coach or club.

***Positive test within a player/coach house hold:**

- Individuals who have experienced a known COVID-19 exposure in the past 14 days, home quarantine for 14 days is required before returning to team activities. A medical clearance is required to return to practice following the home quarantine.
- Any player, coach or manager shall report the onset of any new symptoms to the coach and club immediately. The club shall notify NYSA of additional symptomatic persons and positive cases.

**These recommendations were compiled by the LEAP based on guidance from the CDC, the U.S. Food and Drug Administration (FDA), Nevada OSHA, and other relevant agencies for the industry and public health officials, including state licensing boards. The information provided is only intended as general information to the public. Following these guidelines does not constitute, and is not a substitute for, compliance with all laws and regulations applicable at any particular time. Individuals and businesses are responsible to ensure that they comply with all laws and regulations that apply to them, including, but not limited to, federal and state health and safety requirements. Additionally, compliance with these regulations does not ensure against the spread of infections from COVID-19 or any other cause.*
